

ESTABLISHED 1998

Nearly three decades of institutional trust.

AOS builds the technology governments and enterprises stake their most critical records on — and has, since before most of today's digital economy existed.

WHY NOW

Every institution is racing to own its data — and wants a partner who was already there.

Sovereignty over records

Land, identity, and operational data are being reclaimed as core assets — too sensitive to leave undigitized, or in unfamiliar hands.

A premium on longevity

As institutions re-examine who they trust, decades of delivered work count for more than a new pitch deck ever could.

The paper has to go first

Decades of paper archives are the single largest blocker to modernization. Someone has to convert the paper before anything else is possible.

| *AOS has spent twenty-seven years doing exactly this — quietly, at scale, for government and enterprise partners alike.*

LEADERSHIP

Led by one of Pakistan's most experienced institution-builders.

Ali Arshad
Hakeem

GROUP CHAIRMAN

Three decades spent building the institutions
Pakistan runs on – applied to steering
our vision.

Co-Founder, Ascot Drummond

Raised £2 million in venture capital

Former Chairman, NADRA

National Database & Registration Authority

Former Chairman, Federal Board of Revenue

Concurrently served as Secretary, Revenue Division

Former Chairman, Sindh Board of Investment

A LEGACY INSTITUTION

Built before the digital economy needed us to exist.

Founded in 1998, AOS grew from an accountancy outsourcing pioneer into a full-stack technology institution — carrying the same discipline into enterprise systems, land governance, and public infrastructure.

27

years of continuous operation

200+

professionals worldwide

3

WHAT WE BUILD

Four disciplines, compounded over decades.

I

Enterprise & AI

Software development, ERP, API integration, and AI-powered analytics and process automation.

II

Land & Governance

National-scale digital land administration, cadastral records, and property transaction systems.

III

GIS & Spatial Intelligence

Satellite imagery, parcel mapping, and spatial analytics for infrastructure and land planning.

IV

Cloud & Cybersecurity

Scalable cloud infrastructure, DevOps, identity management, and compliance-grade security.

PROOF AT SCALE

Not pilots. National programmes,
delivered over decades.

100M+

land ownership records digitized across 18
districts of Punjab

169M+

registered deed pages scanned and indexed in
Sindh

200+

technical & support staff dedicated to large-
scale data operations

TRUSTED BY INSTITUTIONS

Certified, registered, and audited to global standard.

ISO 27001:2022	ISO 9001:2015	Registered Vendor — World Bank	Registered Vendor — Asian Development Bank
Registered — Pakistan Software Export Board	Member — P@SHA	Member — Lahore Chamber of Commerce	Xero Certified Partner

TRACK RECORD

Delivered across government, law enforcement, and enterprise operations.

Digital Land & Record Systems — Punjab, Sindh, Balochistan, KPK & AJK

Digitized 169M+ pages and 100M+ records across Pakistan, reducing property deed issuance from two weeks to under five minutes through LRMIS, GIS, and biometric verification.

169M+
pages digitized

100M+
records digitized

Islamabad Police (PROMISE)

Digitized 125,000+ criminal records and connected more than 100 police stations.

Counter Terrorism Department (CTD) MIS

Highly secure software for high-integrity information management.

LDA Integrated Software

Business Process Re-engineering and software development for the Lahore Development Authority.

Departmental MIS

Specialized solutions for the Food Department, Auqaf Department, and KPK Driving License Management.

Giant Group PLC (UK)

Executed high-volume accountancy data entry and software management for 1,500+ clients.

CVRetail (Europe)

Data reconciliation and correction for one of the largest oil companies in Europe, managing high-transaction datasets under strict regulatory compliance.

ONE GROUP, SIX VENTURES

The same discipline, applied across new markets.

AOS Real Estate (Private) Limited Residential & commercial property portfolio & asset management	Zaraat Dost (Private) Limited Agri-finance connecting farmers, lenders & industry	Aerofarmer (Private) Limited Autonomous agriculture powered by drones & IoT
AOS Farmland (Private) Limited Farmland acquisition & data-driven agricultural asset management	AOS Management Limited Residential & commercial property portfolio & asset management	AOS Consulting (Private) Limited Partner of Precise Development, Hong Kong — global business advisory & consulting

GROUP TRACTION · ZARAAT DOST

Proof the AOS data model extends past government into inclusive finance.

6.85M

acres digitized

81,523

farmers profiled

PKR 1B

financing deployed

100%

loan recovery

THE OPPORTUNITY

Partnership accelerates a model already proven at national scale.

One

Scale AI & cloud delivery

Expand the enterprise AI, cloud, and cybersecurity practice to meet demand already coming from existing government and enterprise clients.

Two

Grow the Group

Take Zاراat Dost, Aerofarmer, and AOS Real Estate's data-driven model into new geographies and asset classes.

Three

Deepen international footprint

Widen our office network across Pakistan and build on established operations in the UK and Hong Kong as more institutions modernize.

Grow your **business** with us.

Let's talk about how AOS partners with investors building for what comes next.
